TURNKEY SOLUTIONS FOR QUALITY CONTROL RESEARCH &
DEVELOPMENT LABORATORIES

About Us

Our motivation and purpose

TT is a professional service provider in turnkey laboratory solutions, from designing and building world class laboratories to supplying laboratory equipment and supplies. We do also provide consultancy and training services on GLP (Good Laboratory Practices), ISO17025, laboratory management, effective and feasible laboratory design complying to worldwide standards.

With more than 20 years of experience, a highly skilled technical team and reputable partners, Protek is the leading choice of partner by our customers.

Consultancy on laboratories;

- Infrastructure
- Gas, electrical, air conditioning, facilities, water systems

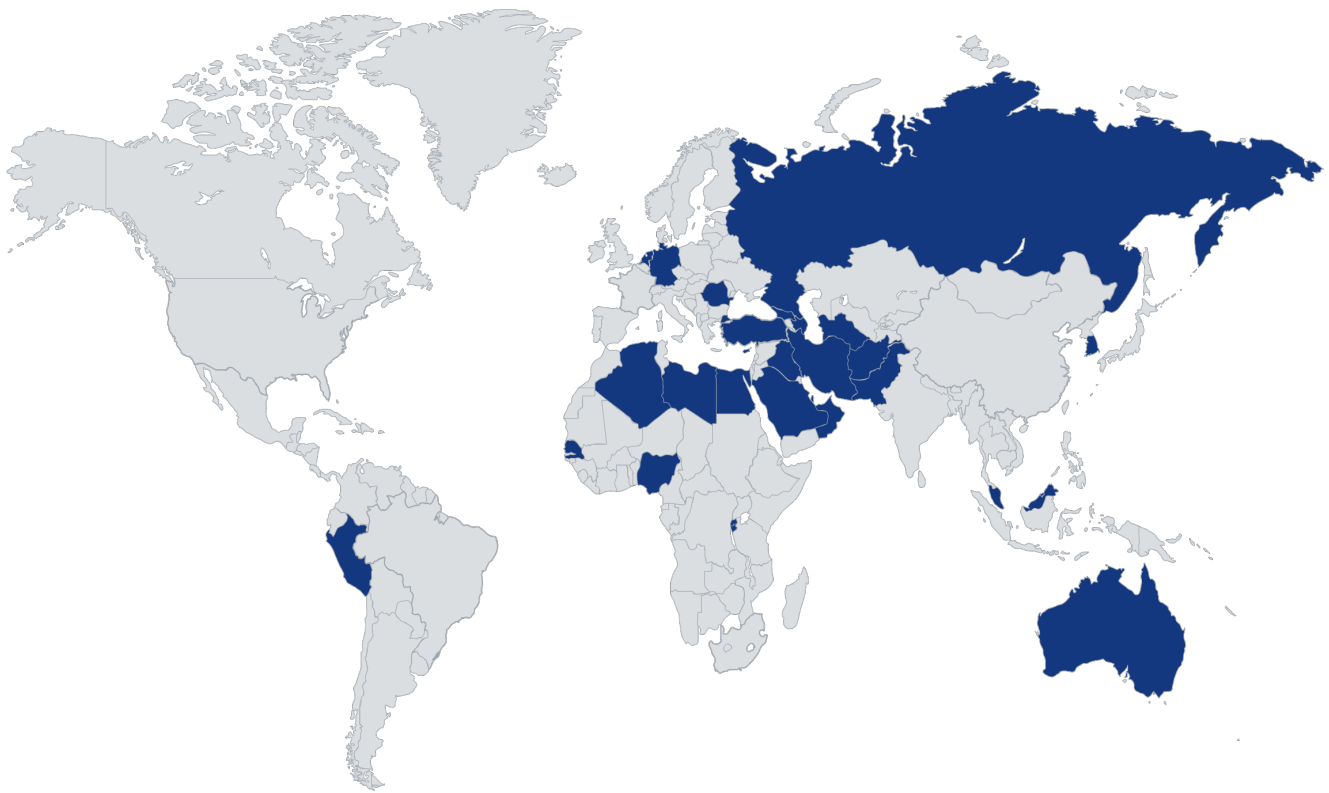

- Layout planning
- 2D, 3D, isometric drawings
- Fumehoods and air flow
- Storage
- Waste management
- Work flow planning
- Equipment and supplies planning
- Manpower planning
- Training of lab technicians

Our Mission:

- To give the best service by delivering high quality products, on time delivery and after sales support
- To provide our customers with professional and efficient services in a manner reflecting our commitment to the highest standards available today
- Being recognised by our employees and our clients for excellence and integrity

Where we are?

Our works on global scale

What we do?

Services we provide

- Architectural Design
- Design and Build;
 - R&D and QC Laboratories
 - Process Laboratories
 - Molecular Biology and Genetical Laboratories
 - Clean Room and HVAC Applications which comply with GLP, GMP Standards
 - Food, Feed, Pharma, Veterinary, Agricultural and Enviromental Analysis Labs
 - Pilot Scale Manufacturing Plants
- Supply of Laboratory Equipment

Areas we specialized

•Food Industry;

- Soft Drinks & Beverages
- Dairy
- Confectionery
- Meat & Poultry
- Seafood
- Fruit & Vegetables
- Flour & Bakery
- Frozen Foods
- Water
- Animal Feed

•Non-Food Industry;

- Pharmaceutical
- Biology & Molecular Biology
- Veterinary
- Agriculture
- Chemistry and Petro-Chemistry
- Educational

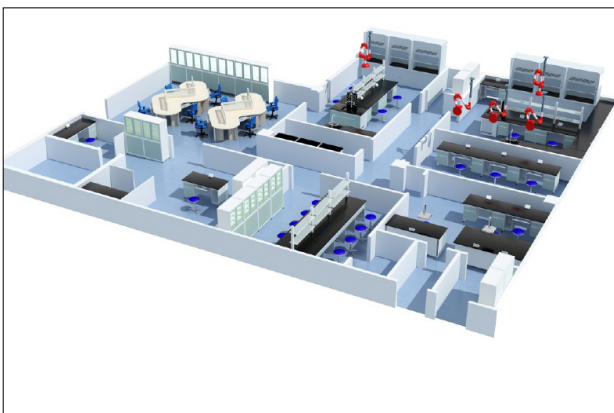

WE SET THE STANDARDS FOR
QUALITY AND EFFICIENCY

TURNKEY LAB ESTABLISHMENT

- TURNKEY LAB DESIGN & PLANNING ACCORDING TO ISO 17025
- LAB BENCHES, CUPBOARDS, SHELVES
- FUMEHOODS, DRAFT CHAMBER UNITS
- LOCAL EXTRACTION ARMS, SUCTION UNITS
- LAMINAR FLOW CABINETS
- ATMOSPHERIC CONTROLLED ROOMS
- BIOSAFETY CABINETS, CLASS I, CLASS II
- CLEANROOMS (CLASS 1000, CLASS 10.000, CLASS 100.000)
- PASSBOX SYSTEMS
- AIRLOCK SYSTEMS
- AIRSHOWER UNITS
- SPECIAL DESIGNED BSL I, BSL II, BS III TYPE CLEAN ROOMS
- MOBILE CONTAINER LABORATORIES ACCORDING TO BSL I, BSL II, BSL III LEVEL

Laboratory Design and Build

- Complying to ISO 17025 and related International Standards
- From A to Z, including infrastructure like electrical, air conditioning and gas systems
- Customized Solutions
- Best quality materials
- Professional expertise input and consultancy

Laboratory Design and Build

Furnishing

Laboratory Benches

The Laboratory Benches are available with three different types of cabinets.

- Suspended Cabinets
- Mobile Cabinets
- Pedestal Cabinets

Suspended Cabinet: In this setup the under bench cabinets are suspended to the C-Frame. There is a space of 180 mm height between the floor and the underside of the cabinets. **Mobile Cabinet:** In this setup the under bench cabinet are placed on the floor. The cabinets are similar to the suspended cabinets.

Mobile Cabinet: In this setup the under bench cabinet are placed on the floor. The cabinets are similar to the suspended cabinets.

Pedestal Cabinet: In this setup the benches do not use the C-frames. The cabinets are mounted on a pedestal and thus directly placed on the floor.

Cleanroom / HVAC Solutions

Designs and Products;

- Cleanroom panel
- False ceilings
- Hinged and sliding doors
- Pass-boxes, hatch boxes
- Air showers
- Laminar flow units
- Laboratory benches, lockers, etc.

Turnkey Applications;

- HVAC,
- Automatic control,
- Piping and plumbing

Areas Specialized In;

- Pharmaceuticals Industry
- Medical Industry
- Electronic Industry
- Glass industry,
- Nanotechnology
- High Patogene Virus Laboratories
- Dry rooms.

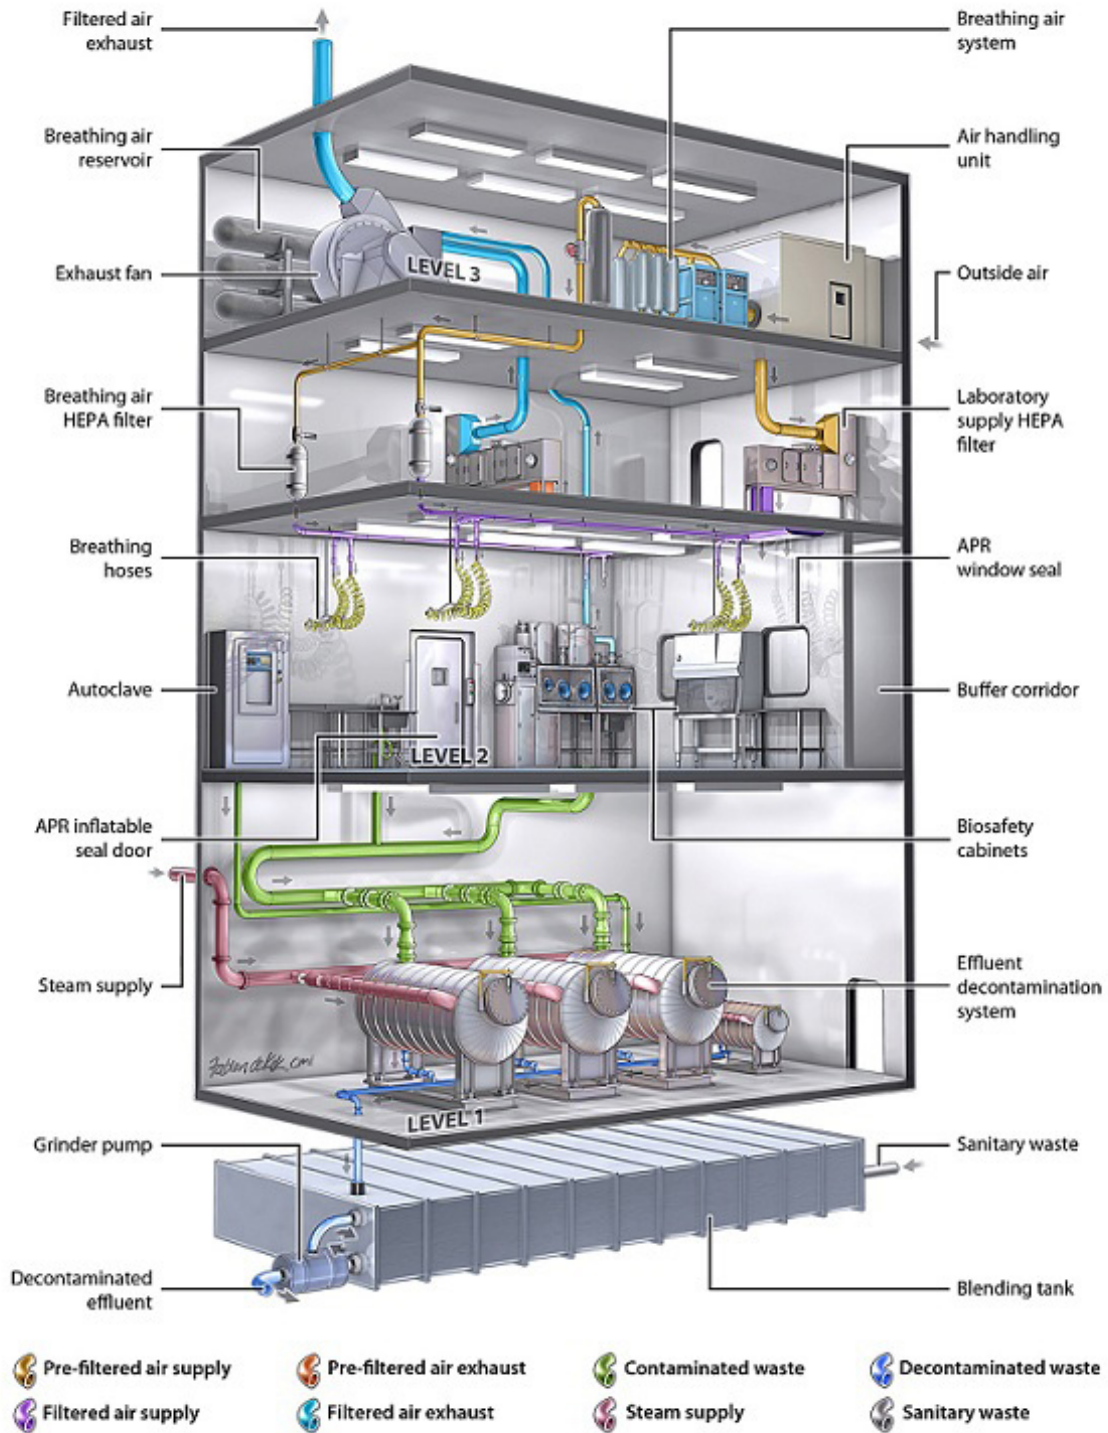

Pass Box

Gas-Tight Door

- ISO 14644 class 5-8 cleanrooms for electronic and nanotechnology
- cGMP and GLP class A-D cleanrooms for health related Laboratories
- Biosafety class 1-3 containment Laboratories (High pathogenic viruses, radiopharmaceutical, vaccine, etc.)
 - Cleanroom panel, doors, pass-boxes, etc.
 - DIN 25496 , KTA 3601 Gas-tight doors, pass-boxes and dampers with inflatable sealing
 - Decontamination showers, disinfection locks
 - Air showers
 - Softwall clean cabins
 - Laminar Air Flow Units for operation theaters, electronic Labs, dispensing hoods
 - Vaporised hydrogen peroxide

| To Higher Quality Standards..

Mobile Container Laboratories

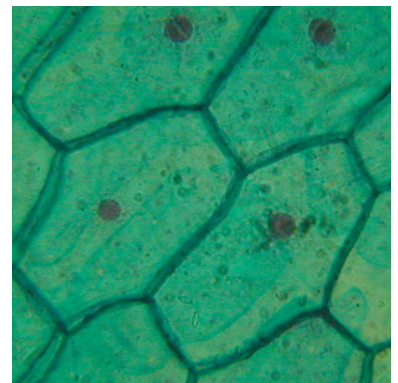

LABORATORY EQUIPMENT & SUPPLIES

- PHYSICAL TESTING LAB EQUIPMENT
- CHEMICAL ANALYSIS LAB EQUIPMENT
- MYCOTOXIN, HORMONE, ALLERGEN, VETERINARY DRUG & PESTICIDE RESIDUE ANALYSIS LABS
- MICROBIOLOGY & MOLECULAR BIOLOGY LABS
- Packaging & Material Testing Systems
- RESEARCH & DEVELOPMENT (R&D) LAB EQUIPMENT

Physical Testing Lab Equipment

- Organoleptic Analysis Lab
- Particle Size and Characterisation
- Viscosity Testing and Rheological Analysis
- Mills, Crusher, Homogenisers, Mixers
- Shakers
- Sample Dividers
- Sorting Systems
- Foreign Body Detection
- Tensile Testing Systems
- Burst Testing
- Force Testing
- Permeability
- Transparency

Chemical Analysis Lab Equipment

- Protein Analysis
- Fat, Oil Content Testing
- Raw Fiber, Dietary Fiber, Lignin Analysis
- Moisture, Dry Matter, Volatility Testing
- Salt Content Analysis
- Free Fatty Acids, Total Acidity
- Volatile Free Fatty Acids
- Brix, Refractive Index and Sugar Analysis
- Starch and Carbohydrate Analysis
- pH, Conductivity Analysis
- Ion Selective Measuring
- Ash Content, Dry Matter Testing
- Vitamin, Mineral and Elemental Analysis
- Colour, Turbidity Analysis
- Instrumental Analysis Equipments
(HPLC, AAS, ICP, GC, GC-MS, LC-M, Ion Chromatography)
- Spectrophotometric Analysis (VIS, UV/VIS, NR, FT-NIR)
- Water Activity Testing
- Titrimetric Analysis Equipments

Mycotoxin, Hormone, Allergen, Veterinary Drug & Pesticide Residue Analysis Labs

- Mycotoxins
- (Aflatoxin B1, Total, M1)
- Ochratoxin
- Zearalenone
- Vomitoxin
- Deoxyvalenol (DON)
- Patulin
- Fumonisin
- T2 / HT-2 Toxin
- Ergot Alkaloids
- Hormones & Anabolisans
- Contaminants
- Veterinary Drug Residue Analysis
- Pesticide & Herbicides Analysis
- Food Allergens
- Enzymatic Food Analysis

Microbiology & Molecular Biology Labs

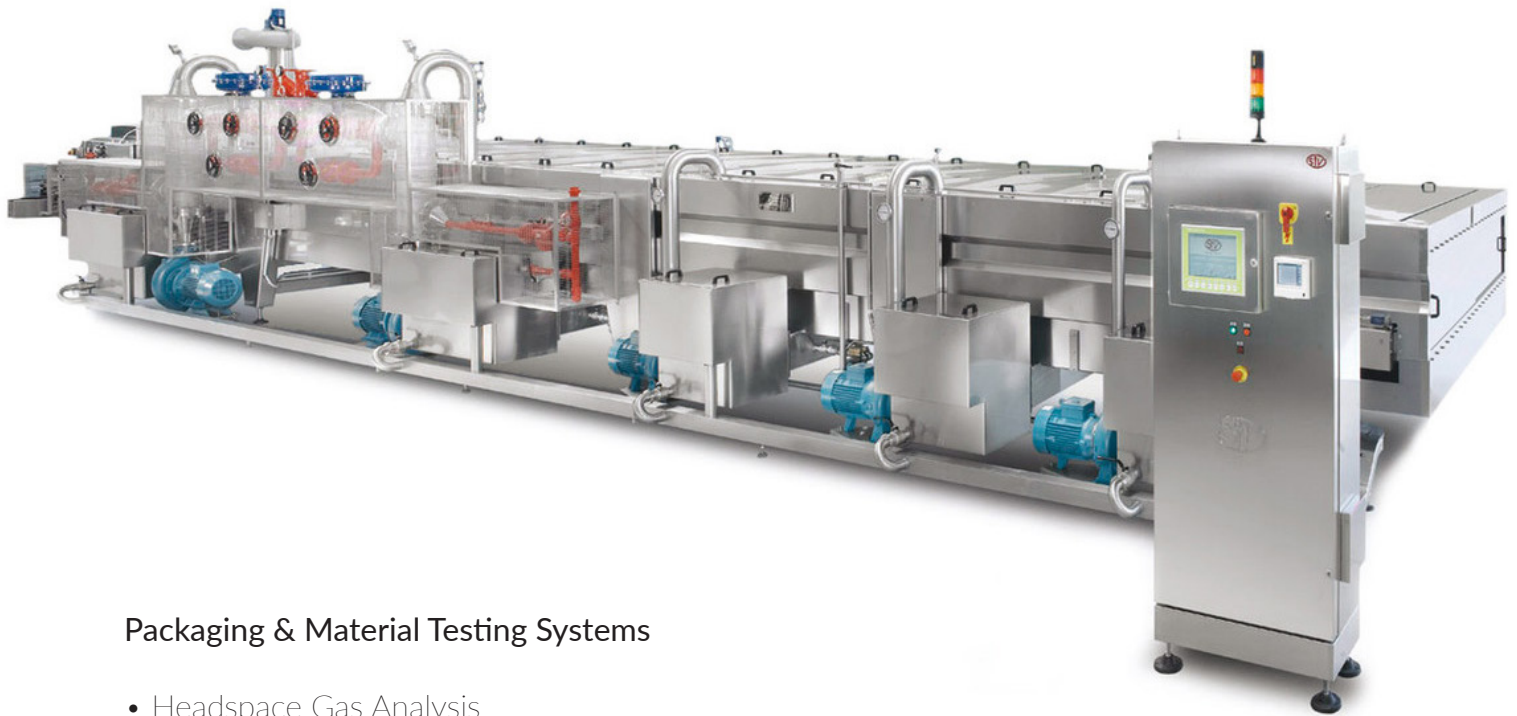

Sample Preparation Systems

- Homogenizers, Mixers
- Stomacher Blenders
- Air Sampling Systems
- Specific Sampling Probes, Sondes
- Automated Autoclaving Systems & Media Preparation Units
- Petri Pouring, Filling & Stacking Systems
- Robotic Media Filling Systems
- Dehydrated Culture Media, Agars, Broth,

Supplements

- Membrane Filtration Systems
- Rapid, Easy To Use Microbiological Testing Kits (Aerobic, Anaerobic Count, Coliform, E. Coli, Fecal Coliform, Yeast & Mould, Enterobacteriaceae, Staph Aureus)
- ATP Based Microbiological & Hygiene Control Monitoring Systems
- Specially Designed Swabs, Broths & Dilution Products
- Molecular Based Bacteria Detection & Identification Equipments, Pathogen Bacteria Testing Systems (Salmonella, Listeria, L.Monocytogenes, E.Coli O157 / H7, STEC, Campylobacter, Pseudomonas)
- GMO Testing Lab Establishment & GMO Testing Kits
- Meat Speciation Testing Products
- ELISA, Fluorometric, Chemiluminescence Analysis
- PCR, Real Time PCR, Microarray Based Testing Systems And Consumables

Packaging & Material Testing Systems

- Headspace Gas Analysis
- Torque Testing
- Cap Testing
- Seam Inspection
- Enamel Rater
- Burst Testing
- TDP Load Testing
- Stress Crack Tester
- Sampling Devices
- Tunnel Pasteurisation
- Carbonation Testing
- CO2 Recovery Systems
- CO2 Purity Tester
- MAP (Modified Atmosphere Packaging) Systems
- Leakage Tester
- Permeability Test
- Foam Testing

Research & Development (R&D) Lab Equipment

- Texture Analysis
- Shelf Life Testing
- Product Stability Testing
- Aging Testing
- Headspace Gas Analysis
- Modified Atmosphere Packaging (MAP) Testing
- Package Design, R&D Equipments

PROCESS CONTROL & MONITORING SYSTEMS

IN-LINE, ON-LINE NIR ANALYSIS SYSTEMS

NON-DESTRUCTIVE QUALITY CONTROL SYSTEMS

PROCESS PHOTOMETERS

MEASURING PARAMETERS

- MOISTURE
- DRY MATTER
- FAT
- PROTEIN
- STARCH
- LACTOSE
- CONCENTRATION
- COLOUR
- ASH
- TURBIDITY
- PH
- ACIDITY ETC.

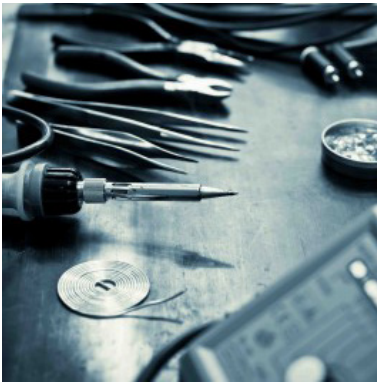

CALIBRATION & MAINTENANCE SERVICES

Our metrology/calibration services keep your laboratory equipment accurate and in efficient working order. Lab Services highly trained experts will:

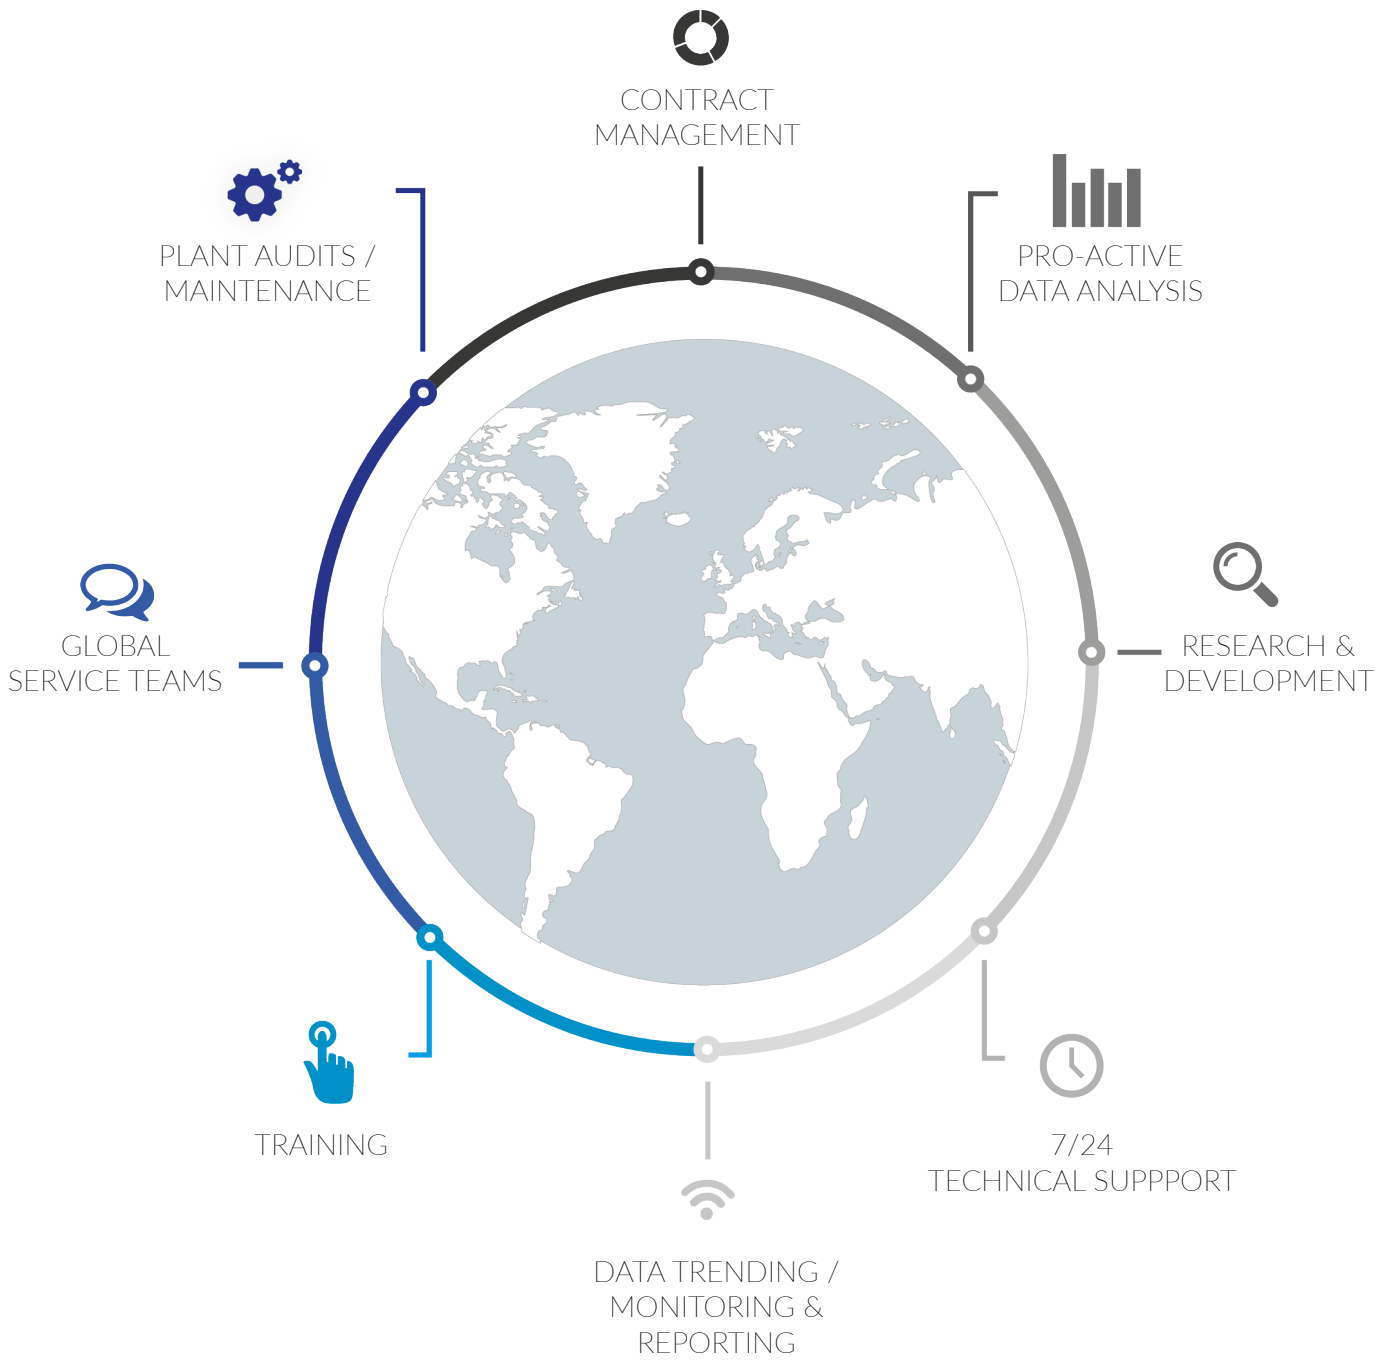

- Clean and calibrate your lab equipment - regardless of brand
- Perform work in our depot or as an on-site service
- Manage a single point calibration or all of the equipment in your lab

Learn more about our services for lab equipment including:

- Thermometers & Hydrographs (Calibration)
- Micropipette (Testing & Calibration)
- Ovens, Baths, Climactic Chambers, Electronic Refractometers & Balances (Test Reports)

TAKING SERVICE TO THE NEXT LEVEL

More Control / Better Economics / Optimal Utilization

Today, service is much more than just repair and maintenance. On-site, the service team gathers valuable information on the specific conditions of the operation. With performance data monitoring, we are able to acquire longterm information, which ensures that troubleshooting and service activities can be very efficient when needed.

TT offers service planning, for preventative maintenance, emergency repairs, and customer-specific maintenance schedules. Our technical service and after sales services keep your laboratory and process equipments in accurate and efficient working condition.

Lab Services highly trained experts will:

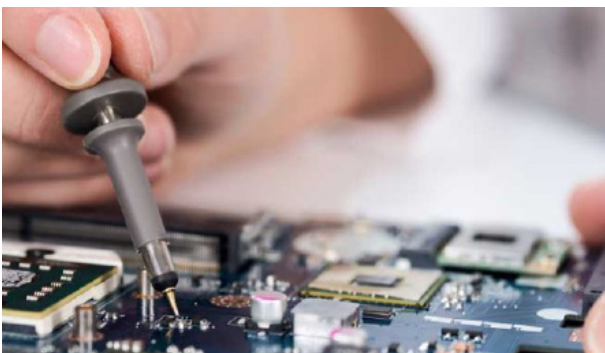

- Clean, test, repair and calibrate your lab or process equipments - regardless of brand
- Perform work in our depot or as an on-site service
- Manage a single point calibration or all of the equipment in your lab

By doing this, take preventative measures to help minimize maintenance time and unscheduled downtime.

The periodic services help minimize maintenance time and unscheduled downtime with preventative measures taken by our specialized technical services team.

Key Features

- Preventative and corrective maintenance
- Original replacement parts planning
- User and technical training on site
- 24/7 phone technical support
- Experienced support and service personnel
